Product Video	N/A
100-Word Product Description	The CORSAIR KATAR PRO XT Ultra-Light Gaming Mouse gets you in the game fast with easy plug-and-play setup. Weighing in at just 73g, its compact symmetric shape is suitable for both claw and fingertip grip styles, while an 18,000 DPI optical sensor and CORSAIR QUICKSTRIKE Buttons offer the precision and responsiveness you need in critical moments. The KATAR PRO XT is built to last with Omron switches guaranteed for 50 million clicks and a drag-reducing paracord cable for fast-paced gameplay. Take control with CORSAIR iCUE software to program the KATAR PRO XT's six buttons with button remaps or custom macros, control its dynamic RGB backlighting, adjust sensitivity, customize three DPI presets, and more. Take the KATAR PRO XT in hand for lightweight design, and heavy-weight performance.
50-Word Product Description	Experience lightweight design and heavy-weight performance with the CORSAIR KATAR PRO XT Ultra-Light Gaming Mouse, getting you in the game fast with easy plug-and-play setup. Weighing in at just 73g, its compact symmetric shape is suitable for both claw and fingertip grip styles, while an 18,000 DPI optical sensor and CORSAIR QUICKSTRIKE Buttons offer the precision and responsiveness you need in critical moments.
25-Word Product Description	Experience lightweight design and heavy-weight performance with the CORSAIR KATAR PRO XT Ultra-Light Gaming Mouse, weighing in at just 73g with a compact symmetric shape and a high-precision 18,000 DPI optical sensor.
Product Features (Style 1)	<ul style="list-style-type: none"> • Weighing just 73g, the KATAR PRO XT is extremely light and agile for hours of fast-paced FPS or MOBA gameplay. • The KATAR PRO XT's compact, symmetric shape makes it great for claw and fingertip grip styles. • An 18,000 DPI optical sensor from PixArt, customizable in 1 DPI steps, offers the precision and high-accuracy tracking you need for victory. • CORSAIR QUICKSTRIKE buttons use a spring-loaded design, delivering zero gap between the left and right click buttons and their switches, so your clicks, shots, and spells are faster than ever. • A lightweight paracord cable reduces drag, enabling faster, tighter, and more precise mouse movements. • Built to last for years with durable Omron switches guaranteed for 50 million clicks. • Create an in-game advantage with six fully programmable buttons, for anything from button remaps to custom macros. • Ready to game right out of the box – just plug in through a USB port and start taking down the competition. • Powerful CORSAIR iCUE software enables custom macro programming, button remaps, mouse sensitivity and lift-off distance adjustment, surface calibration, and more. • Switch between three preset DPI settings on-the-fly without having to interrupt your game. • Dynamic RGB backlighting on the scroll wheel is fully customizable for your choice of colors and lighting effects.
